

SOUTHERN HORIZON

SOFTWARE DEVELOPMENT

Solutions made just for you.

About Us

We are a Full-Service software development company, with more than 15 years of experience. We focus on soft skills, talent management and a deep understanding of technology as keys to achieving our goals.

Applying an efficient software construction life cycle, we provide agile and high-impact solutions.

We think, design, and develop software products driven by, the empowerment of our Clients.

We offer software development services accompanying our Clients throughout the technological transformation and conversion process.

MISSION

Provide innovative software solutions to our Clients, acting as an catalyzer between their needs and technologies, promoting their development and growth.

VISION

To be a software development company recognized in the market, local and global, for meeting the highest quality standards. Reduce the technological gap empowering each project to reach its maximum potential. Fostering long-term professional relationships with our Clients, getting involved in their reality and from there, provide the best possible solution.

VALUES

Teamwork, Collaboration, Service, Innovation and Continuous Improvement, Transparency, Communication, Integrity and Ethics, Participatory Management, Commitment, Training and Corporate Social Responsibility.

Our 4 Step Paradigm

1 Listen

Effective listening is the first step to provide solutions geared towards customer needs. We deep dive into their reality and embrace their problems as our own. We are convinced that listening is the best way to optimize our Client's time and our service.

2 Think

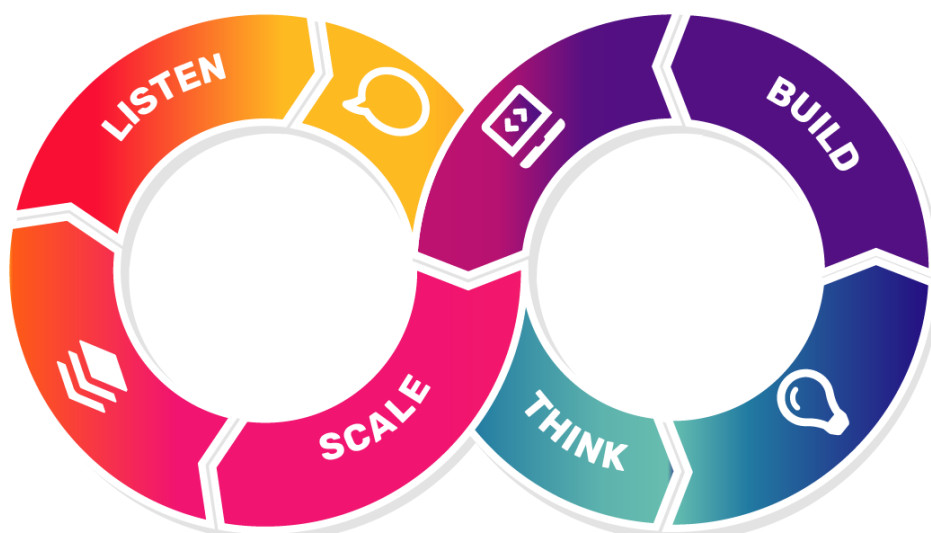

Based on the whole frame of gathered information, we orient our thinking to present Solutions tailored to our Client's needs and possibilities. Jointly with them, we define the action plan to carry out the entire project under a collaborative environment.

3 Build

Software development made easy. Based on this concept, we develop Software Solutions efficiently and interactively. As part of our strategy, Clients' participation within the construction process cycle is essential.

4 Scale

We go along with our Clients throughout their business process, improving each stage, thanks to the implementation of new Tools and Software Solutions. We maintain, improve and scale your Solutions. We are your Technology Partners.

Our Services

We Develop SimpleSolutions To Complex Problems

Tech Transformation

We advise and attend to our Clients throughout the different phases of technological transformation. Our commitment gravitates around the appropriate technological update and its most positively disruptive use cases.

Change Management

We are in a state of permanent change. We are experts in adaptability, tech conversion, knowledge assimilation, and continuous skills improvement. We believe that profound changes foster professional and personal growth.

Teams Empowerment

The human factor is key to achieving success. Any change, and growth, or even development should consider the subjective internal process of each component of the team. Success is collective.

Design & Architecture

We build solid Software Solutions based on reliable state-of-art best practices. We deliver our designs with confidence in our abilities but also with accountability.

Solution & Development

Our solution development is intelligible, agile, but cautious. We work committed in a joint effort with our Clients immersed in the same reality.

Delivery/Integration

Implementación e IC para la correcta adopción de nuestras soluciones. Ayudamos al Usuario en todas sus inquietudes.

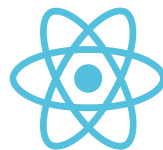

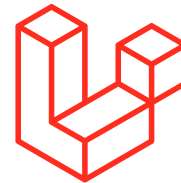

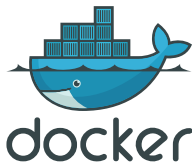

Maintenance & Evolution

Our Solutions evolve with our Clients' business. We provide evolutionary maintenance service as part of our long-term strategy.
